Professional Summary

Seventh-semester Computer Science and Engineering undergraduate at SRM Institute of Science and Technology with an 8.81/10 CGPA through Semester VI. Focused on full-stack web development using JavaScript, Node.js, React.js, HTML, CSS, and MySQL, with an emphasis on backend development and REST APIs. Currently strengthening problem-solving and Data Structures and Algorithms using C++ and Python. Seeking entry-level Software Development Engineer or Full-Stack Developer roles.

Education

SRM Institute of Science and Technology, Ramapuram 2023–2027
B.Tech, Computer Science and Engineering (Currently in Semester VI) CGPA: 8.81/10 through Semester VI

Kendriya Vidyalaya, Chennai 2023
Class XII, CBSE, BiPC 79.8%

Kendriya Vidyalaya, Chennai 2021
Class X, CBSE 89.2%

Technical Skills

Programming Languages: C++, Java, Python, JavaScript, SQL
Web Development: HTML, CSS, React.js, Node.js, Express.js, REST APIs, UI Components
Databases and Integration: MySQL, MongoDB, SAP Sandbox APIs
Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Areas of Interest: Software Development, Backend Development, Full-Stack Applications, AI/ML

Experience

Innomatics Research Labs Feb 2025 – Mar 2025
Full Stack Developer Intern | Remote
- Built a React task manager with reusable task-entry and task-item components (GitHub).
- Implemented task creation, editing, deletion, completion tracking, and localStorage persistence.

ZeeX AI Aug 2025 – Nov 2025
Frontend Developer Intern
- Worked on the frontend of an AI-based traffic-monitoring platform that analyzes government camera footage to help identify traffic violations such as signal jumping.
- Improved the React.js user interface by working with reusable components from a UI component library.

Infosys Springboard
Java Internship
- Completed a Java-focused internship through Infosys Springboard.
- Developed Java programming knowledge relevant to object-oriented programming and application development.

Codezilla, SRM IST Sep 2025 – Mar 2026
Technical Team Member
- Contributed to the development of a quiz/game website used for an internal technical club event.

Projects

ASAP – Agentic System for Automated Procurement [GitHub] *Python, FastAPI, SQLAlchemy, MySQL, Kotlin*
- Built procurement middleware with SAP S/4HANA and MySQL-backed mock ERP adapters to evaluate purchase requisitions and support approval decisions.
- Implemented rule-based risk scoring using requisition amount, vendor history, and patterns to auto-approve low-risk requests and flag higher-risk cases for manual review.
- Developed FastAPI endpoints for authentication, approval/rejection, undo, batch decisions, analytics, and notifications; used SQLAlchemy and MySQL for data persistence.
- Implemented JWT-based authentication and bcrypt password hashing, as documented in the project repository.

Pet Care Appointment and Records Management System – Infosys Springboard *React.js, Java, MySQL, Razorpay*
- Developed Java backend functionality for a pet-care application supporting pet profiles, appointment bookings, prescriptions, and medical records.
- Integrated Razorpay for appointment payments and used MySQL to persist application data.

GlucoPredict – Diabetes Risk Assessment [GitHub] *React, TypeScript, Flask, TensorFlow, MongoDB*
- Built a full-stack application classifying diabetes risk as Normal, Borderline, or High Risk from eight health metrics.
- Connected a React/TypeScript frontend to a Flask REST API and TensorFlow neural network; the project README reports 86.4% accuracy on its test data.
- Added user management and prediction-history storage backed by MongoDB Atlas.

Achievements and Competitions

- **1st Prize and Best UI/UX Design Award** – Celestia 2025, VIT Vellore, for frontend UI/UX contribution to a team project.
- Participated in DevJams '25, HackNight '25, and HackVerse '25.

Certifications

- Full Stack Developer – Innomatics Research Labs, Mar 2025 (Certificate ID: IN1255923; Certificate)
- C Programming – SRM Institute of Science and Technology, Oct 2023 (Certificate)
- NPTEL – Database Management System, Elite Distinction (Certificate)
- NPTEL – Introduction to Machine Learning (Certificate)
